

Just got this from Dolly

Hi classmates

Well its been a rough few years

I had some health issues but glad to say

I am healing and in remission

We had our first snow fall and the world stood still First snowfalls usually does that until people acclimate to the season

I married Jeff two years ago. Have been together since 1990. Made us legal

With the pandemic we have not traveled like we used to but everyone is in the same situation. Hoping this will come to an end soon

Still enjoying the two grandchildren who are now 20 and 21. Jeff partially retired but does more work now as an independent with the steel company he was employed with. I retired from selling real estate prior to my illness

Nothing else is going on

Wishing you all a wonderful holiday season and God bless us all

Dorothea (Dolly Plocki) Murphy
