We need help finding a couple of people. Caroline Dudeck Holthouse and Tom Emerson have disappeared. Any clues? All classmates for whom we have phone numbers are being called. Messages have been left for many, but we also had quite a number of "no longer in service" recordings or blocked calls.

See < <http://www.harbrackclassof63.org/>> to check if your information is correct, or you know of contacts for others. We don't list phone #s on this site because it's not secure. That means emails may be used by others, so be careful opening them.

Some of the people for whom we need help finding are:

Gary Arcurio, Rosetta Brooks Bush, JoAnn Busatto Conforti, Bob Bush, Susan Chernan Scovern, Ed Drahos, Caroline Dudeck Holthouse, Rich Fishkin, Elaine Glogowki and John Malak, Keith Gourley, Veronica Pirch Zandarski, Greg Poole, Theresa Potvoricky Habib, Judy Prager Rowe, Paul Raymont, Mary Susanne Simon Heggins, Darwin Stivenson, Caryl Swircski Phillips, Dave Szweczak, Marjorie Teeters Fish, Norm Walker, Daniel Wendt, Gail Wiles Bosak, Carol Wolfe Geary, Bob Wygonik, Ken Zalundy.

From reliable Tom Delp who responds to almost all our posts:

Ya know, when I read some of these names in the newsletter, I can still picture their faces even back to grade school. Why can't I remember why I went into the next room or where I left that tool. Anybody remember Maureen (Reene) McDonough from sixth grade at Birdville? I saw her name in a technical paper I was reading at 3AM (yea, I'm weird - have trouble sleeping) and did some googling to find this: https://www.canr.msu.edu/people/maureen_mcdonough. I think it's her. Interesting line of work. I find it also interesting that there are so many classmates that nobody can find. I think one of the first was Dave Seaton - Jim Glendenning was another. Another thing I find interesting is the number of folks who never left the greater Pittsburgh area and those who stayed in the Heights and Natrona. I've lived in eight states, FL and AK twice, and one foreign country. Maybe someone can top that but I'm thinking about one more move out of FL. Some would say I'm looking for love (congrats Joe), others say I'm just looking for my lost shaker of salt. Maybe Jimmy found it. I may have mentioned that when Covid started, I started home canning meat, vegetables, and stuff. I'm sure it's over 1500 jars but I had to stop. I ran out of room to stack it and my daughter hollered at me every time I did another batch. She's worse than having a wife. "stop canning - get down off that ladder, finish that project" Jeez!! She doesn't realize she is messing with her inheritance. I guess some of you "athletic" types are still in the race but I'm getting tired. Those who were smart enough to plan for your "golden years" - good job. I still have 2.5 acres to mow, a house to paint, both in and out, and a 27' power boat to finish building. Also, with the climate anomalies the country has been seeing, I expect this hurricane season to be a dilly. The last one, Ian, missed me by thirty miles. I had no damage. Thirty miles north - total destruction to some areas. I really would like to be in the mountains of TN. Probably just run into forest fires there. Oh-well. Keep those cards and letters coming - to Suzanne. I'm glad she is doing what she does.

Thanks, Tom. Send updates and news by reply email or text/call me at (203)770-3155.
